EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
BCA (Bachelor of Computer Application)	MUJ, Jaipur	9.2	2022-2025
MCA (Master of Computer Applications)	MIT	8.8(current)	2025-2027

EXPERIENCE

Full Stack Developer

Wowbits [Link](#)

Remote | Dec 2025- April 2026

- Built WowBits, an API-first AI agent orchestration platform for managing agents, skills, tools, connectors, MCP servers, and schedules in a workspace-based architecture.
- Developed a FastAPI + Python CLI backend to create, update, list, run, and schedule agents, with support for YAML-driven configuration and reusable Python functions.
- Designed a Tauri + React desktop application for workspace selection, agent browsing, session management, and chat-based interaction with running agents.
- Created a starter kit and browser automation tools to accelerate agent setup, reduce boilerplate, and enable rapid deployment of AI workflows.

Fixture Lab [Link](#)

Remote | Oct 2025 – still in working

- Architected and deployed a dynamic "Plan" tool, guiding users through personalized learning trajectories from foundational principles to advanced, industry-specific design challenges
- Built and maintained the **performance analytics dashboard**, translating complex user data into visualizations that highlight skill gaps and progress.
- Optimized database queries and back-end logic to ensure high availability and fast load times for a concurrent, international user base

Shopilab [Link](#)

Remote | August 2025 – October 2025

- Engineered a Trend Discovery module that processes market data to identify "exploding topics" and high -growth products, complete with volume, revenue, and growth metrics.
- Integrated a comprehensive keyword research tool to analyze search volume, CPC, and SEO difficulty, enabling users to dominate search rankings.
- Developed a Website Traffic Analyzer to provide deep insights into competitors
- Built and deployed a scalable **Market Intelligence API** that processes and serves millions of data points on product trends, ad creatives, and keyword metrics.

PROJECTS

DevelUp [Link](#)

FullStack Developer

Designed and launched an AI chatbot for customer service team, streamlining FAQ responses.

Enhanced team efficiency by 40% and reduced response times by 60% .

Engineered a chatroom-based mentorship platform connecting 300+ learners with industry professionals.

BikerBuds [Link](#)

Full Stack Developer

Engineered a full-stack web application from the ground up using Next.js, Node.js, and MongoDB.

Increased user engagement by 40% and reduced page load times by 30% through UI optimization.

Integrated Node.js and Express to develop RESTful APIs for web applications, streamlining data flow and reducing API response times by 25%, improving application performance and decreasing latency.

Developed the community platform, enabling users to seamlessly connect and share experiences, leading to a 20% increase in user-generated content and a higher user satisfaction score.

LEADERSHIP AND EXTRACURRICULAR

CYPHER CLUB (Joint Secretary)

Jun 2022–Jun 2023

Authored a comprehensive cipher security curriculum encompassing 10 modules, empowering students to identify and mitigate 8 common vulnerabilities, as measured through simulations and hands-on labs.

GLICHT JWT (Working Team)

MUJ's biggest club of eSports, anime & VFX: Uniting Gamers, Otakus, & Creators

TECHNICAL SKILLS

C, C++, Python, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, Golang, Langchain, AI Integration, GitHub, Vercel, Figma, Adobe Photoshop, Adobe After Effects, Blender, Git, GitHub, WordPress

ACHIEVEMENTS

•Coding Profile,

Solved 100 questions on LeetCode and 70 questions on Codeforces, demonstrating strong coding skills
